International Rover Meeting 2025

22 May to 25 May 2025 in Baden near Vienna

Dear friends of the Rover brand,

The Austrian Rover Club has the honour of organising the International Rover Meeting in 2025. In the hope of welcoming many friends from Europe and the friendly clubs in Austria, as well as being able to continue the successful tradition of these events, we have tried to put together an attractive program.

We deliberately chose Baden near Vienna to show the participants the beauty and hospitality of Burgenland and the Vienna Woods region and also to give them the opportunity to combine the International Rover Meeting with a short holiday in Vienna.

Baden is located 30 kilometres south of Vienna, in the middle of the sun-drenched wine-growing region of the Thermenregion in the Vienna Woods Biosphere Reserve. Once an imperial summer residence, the city of Baden offers a wide range of cultural and culinary delights, as well as modern wellness oases. Baden was inscribed on the UNESCO World Heritage List in 2021 by the World Heritage Committee as Great Spa Towns of Europe

After an individual arrival, we will meet on

Thursday, May 22nd, 2025

at the "At the Park Hotel", Kaiser Franz-Ring 5, 2500 Baden. The hotel has reserved 50 rooms for us until March 31, 2025. There are 2 parking options available for our wheeled bases. Either outdoors in the hotel parking spaces or in the Casino Garage, 300 meters away.

At 6:00 p.m. we invite you to a guided tour through Baden's old town and it will tell you everything worth knowing about the history, the imperial house and the special features of Baden. All those who come later or are tired are welcome to organize the evening individually.

International Rover Meeting 2025

22 May to 25 May 2025 in Baden near Vienna

Friday, May 23rd, 2025

We will start at 9:00 a.m. and drive via the pilgrimage site of Loretto and the Leitha Mountains to Eisenstadt to Esterházy Castle, where we will set up our vehicles. At 10:00 a.m. we start with castle tours in German and English. Afterwards we have some time to get to know the center of Eisenstadt better. Opposite the Esterházy Palace is a bar that offers drinks and coffee to those waiting, and the very sporty can stroll in the pedestrian zone of Eisenstadt.

Now it's on to the free city of Rust. Numerous town houses from the 16th to 19th centuries with their well-kept Renaissance, Baroque or historicist facades adorn the picturesque and listed old town. Rust is also known as the city of storks and as a wine-growing community. We get a historical city tour and also have time for an individual stroll through the city and possibly to taste one or the other wine in one of the many cafés or wine bars.

Afterwards we drive together to a historic place on the Hungarian border near St. Margarethen. The "Pan-European Picnic" took place there in August 1989. A memorial park for a borderless and united Europe was then built and allows us to learn about the historical events of 1989.

We then continue to Mörbisch to Lake Neusiedl, where an excursion boat is already waiting for us to introduce us to the beauties of this magnificent steppe lake. While we enjoy the drive into the evening, we also get a dinner with typical Pannonian delicacies. Well fortified, we drive back to Baden to our hotel.

International Rover Meeting 2025

22 May to 25 May 2025 in Baden near Vienna

Saturday, May 24th, 2025

At 9:00 a.m. we start from the hotel and the first stage takes us to Mayerling. This place is known for a mysterious and dark story from the Austrian imperial family, but we don't want to reveal too much about it yet.

Inspired by new ideas, we drive back to the hotel, where there is still a little time to freshen up for the gala evening. At 18:00 the gala evening begins at Casino Baden, which also marks the end of the official program.

After the guided tour in Mayerling, we will drive across the Vienna Woods to Hernstein, where we will set up our vehicles for a group photo in front of Hernstein Castle and have a refreshment. We now continue across the Triesting Valley to a collection of automotive treasures, which we visit.
